

## **CSE3002 – INTERNET AND WEB PROGRAMMING LAB**

### **ASSESSMENT -1**

#### **HTML FORMS – INPUT TYPES**

Design a Job Portal website. The design must contain the following

1. Info Page – Information about new openings, with different categories of your choice. Add Sign-in and Registration.
2. Registration Page – Get the Details from the user for subscription & alerts, Use the HTML 5 input types given below.

#### **Input Types:-**

Textfields, Textarea, checkbox, radio button, submit button, reset button, drop down box, images (if required).

***# Add a Logo to the page of your choice.***

***# Use HTML 5 new input types to display additional contents and formatting without CSS.***
